Report Title

Public Notification Procedures - Changes to Street Names - Unopened Subdivision

Policy Implications + Budget Impact

This report and recommendation(s) have been reviewed by the Finance Division and the funding source has been identified

Policy Implications

The Municipal Act, 2001 requires the City to provide notice to the public of its intention to pass certain by-laws, the holding of certain required public meetings and of other matters. Schedule "A" of the City of Greater Sudbury's By-law 2003-2 sets out the form, manner and times the Notice shall be given, unless specified by the Municipal Act, 2001, another Act or a regulation or if Council directs that other public notice is to be given.

Financial Impact:

There is no financial impact associated with this Report.

Background attached

Recommendation

This is a compliance report detailing how the notice requirements for the public hearing have been satisfied and appears for information only.

At the close of the Agenda on Thursday, July 21, 2005, three requests had been received by the City Clerk's Office to address the Street Naming Committee on this matter. As well five e-mails have been received and are included in the agenda package.

Recommendation attached

Recommended by the Department Head

A. Hache

Caroline Hallsworth
Executive Director, Administrative Support Services

Division Review

Name
and Title

Compliance:

As required by the Municipal Act, 2001 and Council's Notification By-law 2003-2, the attached Public Notice regarding changing the names of unopened subdivision streets prior to these streets being developed and the duplicate names being used, was published in local newspapers as well as on the City's webpage:

Sudbury Star - July 9, 2005
Northern Life - July 13, 2005
Le Voyageur - July 13, 2005

Public Hearing

As of the close of the Agenda on Thursday, July 21, 2005 at 4:30 p.m., the City Clerk's Office received three requests to address the Committee. A speaker's list will be provided at the meeting.

As well five written submissions were received and are included in the agenda package.

PUBLIC NOTICE

TAKE NOTICE that the Council of the City of Greater Sudbury proposes that the following **UNOPENED** subdivision streets have their names changed prior to these streets being developed and the duplicate names being used:

RE: Public notice Mon. July 25-05 including FRENCH in our street names

First of all it is racist to say the least.

Shame on council to spend their valuable time on such a sleazy move when everyone is away on vacation. Council must have taken a page out of our Federal Jackboot Liberal Gov't. who know all the lies and dirty tricks. Who proposed this? Some cronie from the racist Federal Liberal party that they parachuted into Sudbury to antagonize?

Our old PM Trudeau was well known for this trait. I can't see it being any different now.

How was this allowed to be even disgust in council when there are so many important issues to be addressed. There are only 25% French in the region so what is the big deal.

Also they offer free at taxpayers expense literacy courses for French people.

I'm sure this course will look after anyone not knowing what Street means.

I don't think the people of Sudbury have to pay twice.

Bilingualism is a huge waste of money and is a failure. We have 35 years of experience at this and we are more divided than ever after BILLIONS being spent.

Be sure that if this goes to a vote in council that the names of the councilors who vote Nays and Yeas are published.

The electorate should know who the racist and red necks are.

Before you should undertake to call me any names as Liberals usually do, Find a name for Mrs. Ricard (made her fortune in the communications business in Sudbury) who gave \$1 million to General Hospital and then pulled it out when Mike Harris was reeling from Paul Martins Liberal deficit cutting (\$23 billion) and decided to shut down the General hospital and make one new hospital to cut costs. She didn't want anything to do with a hospital that the catholic didn't control. As it turned out the St, Josephs center was created to appease the Catholics. Now a pig pen to say the least and we have two Liberal members in the Liberal gov't who are responsible for financing health care in Canada.... Marlow and Bonin.

Mrs. Ricard went on to give her \$1 million to our French only Boreal college.

So you people be sure to find a good name for her before you decide to start any name calling should anyone else show opposition to this racist move.

I can only assume that many of the blunders coming out of Tom Davies Sq. is because too much emphases was put on bilingualism and not brains when hiring took place. Trudeau did this to CN rail (when Liberals ran it) and now they don't have expertise to repair a railway crossing properly. IE Suez and Yound St Capreol

Sudbury ON P3A 5P3

Monsieur/Madame :

En réponse à l'Avis public publié dans le journal Le Voyageur du 13 juillet 2005, veuillez prendre note de mon objection à nombre des noms de rues proposés.

Ce qui me préoccupe, c'est l'absence de reconnaissance du fait francophone, surtout dans les régions de la Vallée et de Chelmsford. À mon avis, la grande majorité des noms doivent être des noms francophones.

Si on ne tient pas compte des noms non francophones qu'on pourrait considérer faisant partie d'un patrimoine mondial (Handel, Kurelek, Dante...), j'estime que seulement huit (8) noms francophones sont proposés pour ces régions.

Ce n'est pas acceptable.

Le gouvernement municipal se doit de reconnaître l'importance de la culture francophone dans ce milieu linguistique minoritaire. Il est primordial que nos enfants puissent retrouver la présence et la culture francophones dans leurs communautés. Autrement, le gouvernement contribue aux forces d'assimilation qui minent la minorité francophone.

Je vous exhorte de reprendre ce travail de planification et de faire en sorte que l'équilibre soit renversé : soit 25 noms francophones, contre 8 noms anglophones.

Espérant que vous vous préoccupez de la vitalité et de l'existence même de la communauté francophone, et que vous donnerez ainsi une suite favorable à ma demande, veuillez agréer mes salutations distinguées.

Dear Madam or Sir,

I am responding to the public notice published in Le Voyageur on July 13, 2005. Please note that I object to many of the proposed street names.

I am extremely concerned by the lack of recognition of the French fact, especially in the areas of La Vallée and Chelmsford. In my opinion, the vast majority of the names must be francophone names.

If we don't account for non-francophone names that may be considered part of the world heritage (Handel, Kurelek, Dante...), I find that only eight (8) francophone names are proposed in these areas.

This is not acceptable.

The municipal government must recognize the importance of the francophone culture in this minority linguistic environment. It is crucial that for our children to be able to see again the francophone presence and culture in their communities. Otherwise, the government contributes to the forces of assimilation that erode the francophone minority.

I urge you to restart the planning work and ensure the opposite balance, i.e. 25 francophone names versus 8 anglophone names.

I hope that you are concerned about the vitality and the very existence of the francophone community and that you will respond in favour of this request.

Sincerely,

Franca Bortolussi - Bonjour

From: "marco chenard" <marcochenard@hotmail.com>
To: <franca.bortolussi@greatersudbury.ca>
Date: 7/20/2005 4:52 PM
Subject: Bonjour

Sudbury, le 20 juillet 2005

Bonjour

On m'a dit que vous étiez la personne à contacter concernant l'assemblée publique du 25 juillet à propos des changements de noms de rues.

Malheureusement je ne pourrai pas y assister, je serai à Chapleau. Par la présente, je vous demande de considérer de choisir des noms français pour les rues qui changeront de noms, car les secteurs visés sont dans des quartiers francophones. La ville du Grand Sudbury est bilingue et multiculturelle. Par contre, il n'y a pas assez de rues qui illustrent cette réalité. J'ose espérer que vous et les élus municipaux puissiez corriger le tir. Vive la diversité culturelle !!

Marco Chénard

Sudbury, July 20, 2005

Hello,

I was told that you were the person to contact concerning the public meeting on July 25 for the changes to street names.

Unfortunately, I will not be able to attend, I will be in Chapleau. By this letter, I ask that you consider to select french names for the streets that will be changing names since the targeted areas are francophone regions.

The City of Greater Sudbury is bilingual and multicultural. However, there are not enough streets that illustrate this reality. I hope that you and those elected at the municipal level will be to correct this issue.

Long live cultural diversity!!

Marco Chénard

Le 20 juillet 2005

Secrétaire
Comité de planification
Bureau du greffier municipal
Ville du Grand Sudbury
C.P. 5000, succursale A
Sudbury (Ontario) P3A 5P3

Madame, Monsieur,

En réponse à l'Avis public publié dans le journal Le Voyageur du 13 juillet 2005, veuillez prendre note de mon objection à plusieurs des noms de rues proposés.

L'absence de reconnaissance du fait français, de la culture et du patrimoine francophone me préoccupe énormément. Les modifications proposées dans les quartiers de la Vallée et de Rayside doivent prendre en considération toute l'histoire francophone et la prédominance de la francophonie dans ces régions. Selon moi, la majorité des noms de rues doit être des noms francophones.

Selon la liste, très peu des noms suggérés sont des noms reflétant la francophonie et ce n'est pas acceptable..

Le gouvernement municipal se doit de reconnaître l'importance de la culture francophone dans ce milieu linguistique minoritaire. Il est primordial que nos enfants puissent retrouver la présence et la culture francophones dans leurs communautés. Autrement, le gouvernement contribue aux forces d'assimilation qui minent la minorité francophone.

Je vous demande de reprendre ce travail de planification et de faire en sorte que l'équilibre soit rétabli et que la majorité des noms soit francophone.

Espérant que vous vous préoccupez de la vitalité et de l'existence même de la communauté francophone et que vous donnerez une suite favorable à cette demande, recevez, Madame, Monsieur, mes salutations les meilleures.

Jean Roy

July 20, 2005

Secretary
Planning Committee
City Clerk's Office
City of Greater Sudbury
P. O. Box 5000, Station A
Sudbury ON P3A 5P3

Dear Madam or Sir,

I am responding to the public notice published in Le Voyageur on July 13, 2005. Please note that I object to many of the proposed street names.

I am extremely concerned by the lack of recognition of the French fact and the francophone culture and heritage. Proposed changes in La Vallée and Rayside must be made with consideration of the whole francophone history and the predominance of the francophonie in these regions. I believe that the majority of the street names must be named by francophone names.

According to the list, very few of the suggested names are reflective of the francophonie and this is not acceptable.

The municipal government must recognize the importance of the francophone culture in this minority linguistic environment. It is crucial that for our children to be able to see again the francophone presence and culture in their communities. Otherwise, the government contributes to the forces of assimilation that erode the francophone minority.

I am asking you to start over the planning work and to make sure that balance is restored so that most of the names are francophone.

I hope that you are concerned about the vitality and the very existence of the francophone community and that you will respond in favour of this request.

Sincerely,

Jean Roy

Report Authored By

Division Review

Caroline Hallsworth
Executive Director of Administrative Support Services

BACKGROUND:

The attached Street Naming and Numbering Policy was developed using the existing Street Naming/Numbering Policies some of the former municipalities, now made consistent, with additional material added in after examination of other municipalities' policies.

The attached draft policy has been expanded from the draft presented to the Committee to include:

1. Multi-cultural names on page 9;
2. Additional material and font selection on page 9, and
3. Requests for change on page 14.

The Street Naming Committee may recommend that Council adopt the draft Street Naming and Numbering Policy as drafted or the Committee may elect to hold a more detailed facilitated review of the By-law.

Option one:

That the Street Naming Committee recommend that Council adopt the Street Naming and Numbering Policy as presented.

Option two:

That staff arrange a meeting in July for the Street Naming Committee to complete a detailed facilitated review of the proposed By-law.

A BY-LAW OF THE CITY OF GREATER SUDBURY TO ADOPT A STREET NAMING AND NUMBERING POLICY

**NOW THEREFORE THE COUNCIL OF THE CITY OF GREATER SUDBURY
HEREBY ENACTS AS FOLLOWS:**

- READ A FIRST AND SECOND TIME IN OPEN COUNCIL** this day of
 , 2005.

Clerk

Clerk

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 1 of 15

City of Greater Sudbury
Street Naming and Numbering Policy

Purpose

The City of Greater Sudbury wishes to adopt a policy and procedures for the naming and numbering of municipal addresses.

Background

The naming and numbering of civic addresses is a City responsibility. This process is normally carried out as part of lot and subdivision creation.

Under the *Municipal Act, 2001*, S.O. 2001, c. 25, a municipality is required to pass a specific by-law to name or rename a public highway. Municipalities are also given the power to name private roadways without assuming these roadways for public use.

Roadways and property lots are normally created through the registration of plans of subdivision, or by approval of severances. Civic numbers are then allocated to these lots by the City's technical services section, and issued to the owner of the property at the time of the issuance of a building permit. The allocation of new municipal addresses may also occur as part of the renaming of existing streets.

Prior to the creation of the City of Greater Sudbury, each of the previous seven area municipalities were responsible for allocating street names and allocating numbers to lots along streets. Many of these municipalities had various processes and by-laws for the allocation of street names and addresses. This work is now carried out through the City's Technical Services Section.

With no formal integration of street naming policies in these previous municipalities, there arose both duplication of street names, and variation in the street numbering systems.

With the incorporation of the City of Greater Sudbury, there is now an opportunity and a requirement to unify and standardize all existing by-laws and procedures, made urgent as a safety measure.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 2 of 15

Problems Associated With Duplicate Names

A street name and lot or building address for a specific geographic location is the linchpin municipalities and organizations around the world use in linking, storing and manipulating data. The duplication (and higher-number replication) of names created with the repeated amalgamation of the previous 33 municipalities now forming the City of Greater Sudbury, as well as differences in numbering protocols, has had a substantial and severe ripple effect.

The lack of uniqueness of a street name can cause confusion, frustration, and time loss. In emergency situations this can mean the loss of valuable seconds, if not minutes or longer, in the response time by emergency vehicles. This is a major concern for all Emergency Services, both those under the City's control, and those provided by other utilities, agencies, or Ministries.

Problems Associated With Numbering

Variations in numbering and methods of numbering do lead to confusion. The following is one example where the variation in the civic numbering system creates confusion. Along the east side of an existing residential street, the houses are numbered 2122, 2130, 1134, 2099, 2101... On this same street, directly across from house number 2130, is house number 2094. This form of civic numbering inconsistency occurs when address numbers are assigned using various conventions.

Confusion in street numbering could and has lead to delays in emergency response. All emergency service organizations have a major stake in responding to a crisis situation in a timely manner. Discussions with the Greater Sudbury Police Communications Supervisor revealed that there are serious concerns with the problem of variations in house numbering conventions. Street addresses are so important that the section of the *Municipal Act 2001* which allows municipalities to "establish, maintain and operate a centralized communication system for emergency response purposes" (9-1-1 service), allows municipalities to enter and affix civic numbers to private buildings. Visible and consistent street numbering is a major factor in an emergency response system.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 3 of 15

Themes

The literature indicates that municipalities applied many various conventions to allocate street names and civic numbering. The street naming conventions range from names based on themes to formal alphabetical requirements. We see this form of theme naming in the Moonglow development with names such as Telstar and Moonrock. In the Brossard part of Longueuil, Quebec, the streets in each area start with the same letter. In other municipalities sequential numbers and letters are used for street naming.

POLICY STATEMENTS

Street Name Criteria

Names must not be duplicated within the City, or which sound similar or have similar spelling (*Ellen Street, Helene Street*). Duplicate names with same parent name but different designation should also be avoided (*Smith Street, Smith Road*), unless they are linked by geography and non-confusing (*Smith Court* or *Smith Lane* could be permitted if they front on *Smith Street*.)

Names should not be confused with a designation (*Southpark Court, Avenue Road, Circle Drive*).

Roadways should not have a directional component differentiating one street separated by a major roadway (*Red Deer Lake Road North, Red Deer Lake Road South*).

Street names that are numerical must be spelled out as opposed to using numbers (*Fifth Avenue*, not *5th Avenue*).

Style

Street names should be unique or sufficiently distinguishable as to minimize confusion during emergency calls.

Street names must not be frivolous or in poor taste.

Street names should not be complicated. Street names should not have unconventional spellings, except for historical purposes.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 4 of 15

Commemorative Street Naming Principles

Street names honouring individuals should be unique, distinctive, and meet the street name requirements as set out in this report.

Commemorative street names should be understandable, recognizable and explainable to the citizens of the City, and should respect the values of all members of our community.

Naming requests for commemorative street names should come from community groups, or organizations, not individuals.

Commemorative street names should reflect and respect the history, heritage and culture of the community.

Commemorative street names should reflect an individual's or organization's significant contributions to public life in general, and to the City of Greater Sudbury in particular.

When naming a street after an individual, every care should be taken to ensure that the name selected reflects an individual of such extraordinary prominence and lasting distinction that no other individuals, families or organizations can come forward and suggest alternative names.

All requests for commemorative street names should be submitted in writing, and shall include the rationale for the proposed name. In the case of a proposal to honour an organization or individual, documentation of the individual or group's record is required. Letters of support from appropriate organizations and individuals that provide evidence of substantial community support for the proposed name are required.

All requests will be forwarded to the technical services section for review within the framework of this policy. As part of the review, staff will ensure that the contributions of an organization or individual are well-documented and broadly acknowledged within the community.

All requests for naming will be circulated to stakeholder groups, including all emergency responders, for comments.

Where the naming request is substantiated and has documented support by the community, it will be brought forward in an option package for City Council's consideration, either for inclusion in the City's Approved Street Name List, or for a change of a street name

SCHEDULE "A"

to By-law 2004- of the City of Greater Sudbury

Page 5 of 15

Approved Street Names

To assist in addressing the problems associated with duplicate street names, staff has collected names that occur in other municipalities and from other sources, and that do not exist within the City of Greater Sudbury. This list should be adopted by Council from time to time as the approved list of street names.

This list of approved street names should be used in the development of any plan of subdivision, but subdividers are encouraged to develop their own themes and suggested names.

Street Name Changes

The City of Greater Sudbury has streets that cross old municipal boundaries and change names. As an example, *St. Laurent Street* becomes *Valley View Road* at the old municipal boundary, mid-block. This should be avoided where possible. If a street name change is inevitable, the change of street names must occur at an intersection, not mid-block.

Names and Street Function

Having industrial traffic entering a residential area due to the street name should be discouraged. Generally, a street should have one name throughout its entire length. In new subdivisions, sections of a street that changes function, from an industrial roadway to a residential street at clearly defined locations, such as at an arterial or collector roadways, should be given unique names.

Non-Continuous (Broken) Streets

Ideally, streets are developed as part of one plan of subdivision. When streets are extended or will be extended due to an expansion of the subdivision, or the creation of an adjacent subdivision, discontinuity of a named street can occur. Topography also plays a major role in breaking named streets into different sections.

Where road sections are permanently separated by a gap or will not be linked into one continuous roadway in the foreseeable future, consideration should be given to choosing a unique name to each portion of the street. If it is to be expected that the gap will be completed within a few years, the broken streets may be allowed to remain, but the numbering of houses should anticipate the completion.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 6 of 15

Private Access

There exist many developments and properties that share accesses over private roadways and lanes. This creates confusion in addressing and locating properties. The creation of street names for the private roadways or lanes would allow for efficiently locating houses and buildings by emergency services as well as the public.

It is recommended that all private driveways, or laneways that serve as the only public access for two or more properties shall be named. Laneways that do not serve as the only public access for a property should not be named.

It is recommended that all street signs for these named roadways be designated private. Private road Street names shall have the street name, signs and an appropriate designation such as Private Road on the sign or directly below the street name sign. This is to inform the public that a named roadway is private and is outside municipal responsibility.

Designations

Roadways are designed and constructed with specific functions in mind. Primary arterials such and *The Kingsway* and the *Notre Dame Avenue/Paris Street* corridor have as their primary function the movement of a large number of people and goods between areas within the City of Greater Sudbury. Arterials also tie the City of Greater Sudbury to the Provincial highway network and the outside world. They are designed to carry high volumes of traffic at high speeds.

Conversely, roadways with the designation "lane" are normally designed to serve as secondary access to abutting properties, and are generally narrow, normally with enough space for only one vehicle to travel at a time.

The City of Greater Sudbury shall formally allocate prefixes to street names based on roadway function and design.

Street Classifications

1. Arterials

Highway/Hwy. Provincially-designated roadways that connect towns or cities.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 7 of 15

Boulevard/Blvd. Major roadway that connects two or more areas within the City and/or to the provincial Highway network, and can be constructed with boulevard or median ornamentation.

Parkway/Pky. Major transportation corridor that extends over more than one area of the City of Greater Sudbury, and is in a park-like setting.

Avenue/Ave. A wide public roadway normally lined with trees or other ornamentation that extends over more than one area.

Street/St. A public road whose main function can be either that of an arterial roadway or local street.

Drive/Dr. - A roadway designed to carry higher volumes of traffic, or to join two or more areas within the City, or areas to major arterials.

Road/Rd. - A roadway whose main function can be either that of an arterial roadway or a local street.

Chemin/Ch.- A roadway whose main function can be either that of an arterial roadway or a local street.

2. Minor Roadways

Way/Way. A roadway designed to serve abutting properties, and may change compass direction from time to time.

Line/Li. - A rural roadway, generally along a Lot or Concession line.

Hill/Hi. A roadway that services abutting properties, located on a hill or rise.

View/Vw. A roadway that serves abutting properties, is on an elevated topography, and offers a view.

Trail/Trail. A winding or curving route, normally through the countryside.

Terrace/Ter. A roadway usually located on a hill or escarpment. This designation can also be used for a private residential cul-de-sac.

Montee/Mo. - A roadway usually located on a hill or escarpment.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 8 of 15

Heights/Ht. A roadway located on a hill or escarpment.

Circle/Ci. A roadway that completes a loop on itself; this designation can be used for a private roadway.

Crescent/Cr. A curved or arc-shaped roadway, especially one that opens onto the same street or adjoining streets.

Lane/Lan. A narrow roadway usually servicing the back of properties; this designation can be used for residential roadways, normally in a rural setting.

Alley/Al. A narrow roadway with the same functions as that of a "Lane", often private.

Court/Cr. A short residential street that is often closed at one end or joins two adjacent streets.

Gate/Gate. A short roadway, being the main access to a subdivision. This designation can be used for cul-de-sacs or roadways to private developments.

Green/Gr. A residential roadway or cul-de-sac usually having adjacent open space.

Cote/Co. – A residential roadway.

Place/Pl. A roadway normally associated with a relatively open area such as a public square or a short street.

Grove/Gv. A residential street normally located near water or a wooded area.

Mews/Me. A residential street.

Row/Rw. A residential street, often containing row housing.

Plaza/Pz. Normally applied to private roadways or developments. This designation can be used for public roadways, especially ones associated with open areas.

Garden/Gdn. Usually applied to private roadways, but can be applied to minor roadways with noticeable vegetation.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 9 of 15

It should be noted that there are many more designations than that described. Canada Post has a bilingual list of 149 street designations. The list supplied above should be used as a base, but not an exhaustive list, and any additional designation should be evaluated for its appropriateness for the roadway being named.

Bilingual Status

The City of Greater Sudbury has a policy that fosters its bilingual heritage. The following is the appropriate passage relating to signing.

“Signage and Other Identification”

Signage produced by or for the City of Greater Sudbury and intended for public viewing shall be in both official languages or shall make use of international symbols (icons).”

In furtherance of this policy, all names associated with public roadways or private roadways should be legally designated with appropriate designations in both official languages, and all street name signage should include the abbreviated designations.

All new or changed roadways should be named with bilingual designations.

All unchanged roadways should be continued with their existing unilingual designations, either in French or English.

First Nation and Multi-Cultural Heritage

The City of Greater Sudbury is proud of its First Nation and multi-cultural heritage. The selection of new names for streets or replacement names should reflect this heritage wherever possible. If a name is to be replaced, it should be replaced with a name that continues the original ethnic heritage already there. New names in portions of the City should reflect the ethnic make-up of that community so that Finnish names, for example, are used in areas where those of Finnish descent may be numerous.

Use of Designations

Many City street signs do not contain designations. As these are replaced from time to time, they should be replaced with sign containing the full designations, in order to assist in location finding and addressing (*Bessie Avenue*, not just *Bessie*).

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 10 of 15

Font Selection and Backgrounds

The former municipalities now forming part of the City of Greater Sudbury have had numerous font sizes and colour schemes for the street naming signs. Those are becoming consistent over time, but are not to be undertaken as a special project. Font size is to be large and legible, and consisting of both upper case and lower case letters. Designations such as "st." or "rue" are to be used on all new signs.

The signs should be of high contrast between text and background and in appropriate circumstances may be large signs consisting of retro-reflective backgrounds should be used.

Street Numbering

The allocation of street numbers for each lot can be carried out using various procedures. Address numbers must take into account present uses of the property as well as how the property may be developed. Since these street numbers are relatively permanent they must apply not only the present use of the property but should also consider possible alterations. A property presently developed as a single-family unit can be redeveloped as a duplex. The future possible uses of a property must be considered in allocating street numbers.

In many municipalities, road patterns were created using various protocols. In the Canadian West, many municipalities developed using a grid system. In other areas, due to topography or existing highway networks, radial road patterns were developed.

The grid system allowed street addresses to be numbered based on defined city blocks, such as having the nearest block to the main roadway numbered in the 100s. Others used the major east/west, and north/south roadways as a starting point and numbered properties based on fixed distances from these baselines. As an example, a property with 50-foot frontage would have street addresses different by four from the abutting two properties, while a property with 35-foot frontage would only differ by two numbers from the adjacent properties.

Other jurisdictions overlaid uniform latitudinal and longitudinal grids to produce civic numbers. This would see addresses along all north/south roadways that are between two parallels of latitude have the same range of numbers. In many of these municipalities, boundaries such as a major highway or a lake allow for a reference line from which to commence civic numbering.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 11 of 15

The City of Greater Sudbury has a mixture of radial and grid street layouts, often constrained by topography. Any street numbering convention must take into account barriers to common starting points, any possibility of roadway extension, and the numbering pattern within the area.

This policy addresses this issue by creating a list of major roadways used to create a starting point for street numbering.

As an example, streets running north and south from Municipal Road 15 would have the street addresses increasing from Municipal Road 15. Streets that cross Municipal Road 15 would see either a change in name, or a numerical system that starts from its south end and continues across Municipal Road 15.

General Conventions Street Numbering System

The following roadways will be used as the starting point for numbering unless otherwise indicated.

- 1) Municipal Roads 90, 89, 86, 85, 84, 80, 73, 71, 70, 67, 66, 55, 46, 39, 35, 34, 24, 15, 10, 4, and 537
- 2) All other Arterials
- 3) All designated Collector roadways

Streets will be deemed running east/west or north/south based on their predominant direction.

Even civic numbers will be applied to the north and east sides of streets. Odd numbers will be applied to the south and west sides of streets.

On roadways that change alignment, even and odd numbers will never be transposed.

On roadways that are crescent or loop shaped, properties on the outside or longest roadway frontage will be allocated even numbers.

On roadways that are crescents or loops, properties on the inside or shortest roadway frontage will be allocated odd numbers.

Numbering of properties shall increase by two numbers for each 3m of frontage along the public roadway.

On roadways that have unequal frontages due to alignment changes, sharp curves or connecting intersections, numbers shall be set aside to create as closely as possible numbers that are consistent with the facing properties.

SCHEDULE "A"

to By-law 2004- of the City of Greater Sudbury

Page 12 of 15

Numbering systems along a roadway shall commence from an arterial or highest classification of roadway.

If adjacent roadways are of equal importance, the numbering system shall commence from east to west, or north to south, or consistent with the numbering system within the immediate area.

On roadways that are partially completed, numbers shall be assigned as if the roadway was completed and commencing from the highest classification of adjoining roadway. If the roadway does or will bisect a higher classification of roadway, the most easterly or northerly end of the roadway will be the starting point.

On cul-de-sac roadways, civic numbers on the right hand side entering the cul-de-sac shall be odd civic numbers.

On multiple-unit developments, the unit designator shall be the prefix followed by a dash and street address (123- 445 Fred St., or Unit 123-445 Fred St.) When the alphabet is used to designate units in a development, the unit designator shall follow the address number (115b Fred St.)

Shopping Plazas, Malls, Industrial Parks, Condominiums, Townhouse Developments

Shopping plazas, malls, industrial parks, condominiums and townhouses will have one address for each structure on the property. Each of the owners units, clients or rental units within a plaza, mall, condominium, townhouse development or industrial park shall have an alpha or numeric designator. Industrial parks, condominiums or townhouse developments with a common access will be assigned a designated name for the major common lane or roadway and addresses for each unit or structure will be assigned as set out in this policy.

House Number Signs

The importance of finding a home or business for emergency vehicles cannot be understated. For this reason the previous municipalities addressed the question of signage in attempt to make addresses visible from the public roadway. With the implementation of the 9-1-1 emergency communication system, the municipalities carried out concerted efforts to have all property in the coverage area signed with a civic number. Two-sided retro-reflective signs with the property's civic number were installed at the intersection of driveways and roadways for all rural homes and businesses.

SCHEDULE "A"

to By-law 2004- of the City of Greater Sudbury

Page 13 of 15

Private driveways serving more than one residence had special signs indicating the range of the civic numbers being serviced by the driveway.

In urban settings where this form of signing would not be universally accepted, numbers installed on houses were acceptable. Criteria were developed for numbers to be used, their location, and in what situations other types of civic numbers would be acceptable. The previous criteria varied, and in some instances conflicted with requirements of other municipalities. The following is an attempt by the City of Greater Sudbury to address the differences, and to be acceptable to both the emergency services and to the public.

The following signing requirements are based on existing criteria, and uses distances from the public roadway as a basis for number heights.

Urban Properties Numbering Display

Minimum Character Size

Maximum Setback

7.5mm (3 inch)	Up to 3m (10ft)
15mm (6inch)	Up to 9.1m (30ft)
11mm (4.5 inch)	Up to 15.3m (50ft)
Municipal numbers must be posted at the street	Over 15.3m

A number on the building must be visible at all times from the street, in either direction. The number must be in a numerical format (cursive or roman numerals are not acceptable).

The number and background must be in contrasting colours.

Street Posted Numbers

A number posted at the street must have a letter height of 7.5mm (3 inch) and be white on green with retro-reflective numbers. The sign is to be installed on a post at the intersection of the driveway and roadway, at a height of no less than 1.2m (4ft.) and less than 2.1m (7ft.) The sign shall be two-sided with the municipal number on both sides, installed at a right angle to the roadway.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 14 of 15

Assigned civic retro-reflective numbers shall also be installed on both sides of rural mailboxes. If the mailbox is installed on the same side as the driveway, the mailbox can be displayed in lieu of the previously required sign.

Multi-occupancy projects must have one main number that may be located on either a pylon sign or a separate sign at the street.

Nonconforming signs

The approval of this signing policy will create many residences that may not meet the new criteria. Though it would be ideal that once passed, all civic numbers would be changed to meet the criteria, as in most new by-laws the City shall allow a grandfathering provision to allow all existing signs to be acceptable until altered. At that time the new signs should be altered to meet the existing criteria.

There are instances that may exist of signs that may not meet the provisions of this By-law but meet the intent for conspicuousness. The acceptance of variation in civic number types is hereby delegated to the Technical Services Section.

Variations to the Policy

All numeric civic addresses on structures that pre-exist the passage of this By-law are deemed legal nonconforming, and may continue until altered.

The General Manager of Growth and Development may approve requests for the installation of civic address numbers that do not meet this By-law, but address its intent for conspicuity. This power may be delegated to the Technical Services Section.

Request of Name Change

In order to maintain continuity and minimize confusion, name change requests should not be considered lightly, and should be handled only where it is appropriate to do so.

If a name change request deals with a duplicated, interrupted (broken), or other street name that requires amendment, then the request should be considered by Council or by a Committee established to deal with street naming issues. In this case, the costs associated with advertising and the name change should be borne by the City.

SCHEDULE "A"
to By-law 2004-
of the City of Greater Sudbury

Page 15 of 15

In the case of a private street being named, no advertising costs are involved, and it is in the City's interest to have the street formally referred, and so the City should absorb the costs of any necessary street signs.

In the case of a request to rename an existing public street that is not duplicated or otherwise in need of change, whether the request is commemorative or otherwise, the associated cost of advertising and signage should be borne by those requesting the change and the City should consider the matter accordingly before proceeding.

Franca Bortolussi - Fwd: Street naming: Policy suggestions

Subject: Fwd: Street naming: Policy suggestions

>>> Andre Rivest 07/15/05 11:41 AM >>>

Hello Angie,

Here are some suggestions we could discuss on the 25th when setting a policy for naming streets. Please send these along with any others you may have received to the other committee members.

- 1). Avoid sound alike names. Example: Conversation Street. Conservation Street
- 2). Keep with the character of the area. Example: areas that have tree names would appropriate to have other tree names.
- 3). Promote cultural names in cultural settings. Example: the flour mill should have french canadian names. The Donovan should have multicultural names. Litte Italy should have Italian names. etc...
- 4). Should maintain historical names where the name originates.
- 5). Any names that do not fall within the guidelines of the policy should be brought to the committee for approval.
- 6). All names should be sudbury related. Example: no need to name a street from a prime Minister. i.e. Mackenzie street.

I may have more come the meeting date.

Franca Bortolussi - Street Naming Committee

From: "Fern Cormier" <fern.cormier@sympatico.ca>
To: "Franca Bortolussi" <Franca.Bortolussi@city.greatersudbury.on.ca>
Date: 7/12/2005 11:58 AM
Subject: Street Naming Committee

Hi Franca: As requested here are the issues that I would like to recommend to the draft by law regarding street naming.

"In order to honour and commemorate those who sacrificed so much for all Canadians, that street signs for streets named after veterans or battles Canadians fought be marked by a poppy to give honour 365 days a year. Further that these street signs could be "adopted" by veterans families, Legions, and those who wish to help defray the cost of replacing these signs with the new poppy signage."

As you can see I lifted most of this from the City of Windsor information.
If this is appropriate for what we were asked to do I would ask that it be placed on the list of items to discuss at our next meeting. Thanks Franca.
Fern

Franca Bortolussi - Recommended changes to the Street Naming Policy

From: Claude Gosselin
To: Franca Bortolussi
Date: 7/15/2005 2:48 PM
Subject: Recommended changes to the Street Naming Policy

Here are my recommendations to be added to CGS Street Naming Policy:

-Names should not be used which could be regarded as an advertisement for a specific product, service or company

-Names of living persons should be avoided; unless in exceptional circumstances, with the approval of Council

-Names which duplicate common facility names should be avoided

Also I would like to add the following to the section that explains "In the case of a request to rename an existing street that is not duplicated or otherwise in need of change..."

a petition signed by 75% of the residents or businesses fronting on the street is needed

Claude Gosselin

Ron Swiddle
City Solicitor

Division Review

Ron Swiddle
City Solicitor

BACKGROUND:

The attached list consists of 1,003 possible street names. It is recommended that the Committee adopt this list for future use.

In the past, some of the former municipalities, most notably the City of Sudbury, kept such a list and added to it from time to time. The list could then be used by subdividers and developers when creating new streets, or the subdividers and developers could suggest their own names.

The names in the attached list consist of the names from the previously approved list of the former municipalities, once duplicate names had been removed. As well, several historic and local names have been added, often on suggestion from members of the public.

Certain names have been struck through in the attached list. This is to indicate that they have already been used by a subdivider who have requested their use in a new subdivision, or that the names have been recommended to Council for the elimination of certain duplicate street names.

**THE FIFTH MEETING OF THE STREET NAMING COMMITTEE
OF THE CITY OF GREATER SUDBURY**

**Committee Room C-12
Tom Davies Square**

**Monday, June 27th, 2005
Commencement: 4:05 p.m.
Adjournment: 5:20 p.m.**

COUNCILLOR ANDRÉ RIVEST PRESIDING

<u>Present</u>	Fern Cormier, Roy Edey, Claude Gosselin, Tony Sundholm
<u>Staff</u>	C. Hallsworth, Executive Director of Administrative Support Services; A. Haché, Acting City Clerk; F. Bortolussi, Planning Committee Secretary
<u>Declarations of Pecuniary Interest</u>	None declared.

MINUTES

The minutes were amended by change the start time of the next meeting to 4:00 p.m.

Report #4
Street Naming
Committee
Minutes of
June 13th, 2005

The following recommendation was presented:

Recommendation #2005-5:

Rivest: THAT Report #4, Street Naming Committee Meeting of June 13th, 2005 be adopted as amended.

CARRIED

MANAGERS' REPORTS

R-1
Street Naming
and Numbering
Policy

Report dated June 24th, 2005 was received from the Executive Director of Administrative Support Services regarding street naming and numbering policy.

The Committee discussed the two options listed in report and chose Option 2 — that the Committee meet in July to complete a detailed facilitated review of the proposed by-law. The City Solicitor will be asked to attend the July 25th, 2005 meeting to explain the draft policy section by section. Also, it was agreed that Committee Members would review Option #2 as well as other documentation from other municipalities prior to the July meeting and submit suggestions or comments by July 15, 2005 to the secretary of the Committee.

R-1
Street Naming
and Numbering
Policy (cont'd)

The following recommendation was presented:

Recommendation #2005-6:

Rivest: THAT Option 2 be adopted.

CARRIED

R-2
List of Acceptable
Street Names

Report dated June 24th, 2005 was received from the Executive Director of Administrative Support Services regarding list of acceptable street names.

After discussing the list of street names and what should be acceptable street names, the Committee agreed that names should not be accepted until the street naming and numbering policy is in place. The matter was deferred to the next meeting.

Public Hearing
Date

The Committee agreed that the Public Hearing regarding duplicate names, unopened and deemed streets would be held on Monday, July 25th, 2005 at 3:30 p.m.

Next Meeting
Date

The Committee agreed to hold their next meeting immediately following the Public Hearing on Monday, July 25th, 2005.

ANNOUNCEMENTS AND QUESTIONS

Maps - Twps. In
City of Greater
Sudbury

Roy Edey asked if Committee Members could be provided with maps showing all the townships in the City of Greater Sudbury.

Street Maps

It was agreed that a street map book of the City of Greater Sudbury would be provided to Committee Members at the next meeting.

Adjournment

The meeting adjourned at 5:20 p.m.

Re: MULTIPLE- "Pine" & other Streets

Dear Members of Committee:

From anger, annoyance and distemper expressed by persons living on "Pine"
for many, many years, has your work group considered

White Pine

Red Pine

Scots Pine

Jack Pine

Pitch Pine

Sugar Pine

and so forth

}

Respectfully submitted,

John D. Rutherford
