# SITE PLAN CONTROL AGREEMENT APPLICATION

## Site Plan Control Background

A Site Plan Control Agreement is a legal agreement registered on title at the Registry Office. The agreement describes the manner in which a property is to be developed and maintained after construction. The agreement also provides for required financial guarantees in the form of deposits that are to be returned to the developer upon completion of construction and in some cases cash contributions to the City to pay for specific improvements to City infrastructure.

The goals of site plan control include:

- Improve the image and aesthetic appearance of the City by applying consistent standards and guidelines.
- Ensure off street parking and loading facilities are located, constructed and maintained in accordance with City requirements.
- Ensure safety and convenience of automobile and pedestrian traffic to, from and within a new development or redevelopment.
- Improve infrastructure systems through land and easement dedications.
- Protect environmentally sensitive areas.

A Site Plan Control Agreement is required when a building permit is requested within an area subject to Site Plan Control or as a condition of rezoning, minor variance or severance.

Pursuant to Section 41 of the Planning Act one or more of the review agencies may request cash contributions or improvements to the infrastructure under their purview. These may include easements, road widenings, changes to entrances, sidewalks and infrastructure improvements.

Please refer to the City of Greater Sudbury's website for the Site Plan Control Guide which provides further information on the Site Plan Process along with Design and Drafting Requirement (<https://www.greatersudbury.ca/do-business/planning-and-development/start-a-planning-application/planning-application-forms/site-plan-control-guide/> ).

## Site Plan Control Process

All applicants are required to contact the Site Plan Control Engineer or the Site Plan Control Engineer's designate to determine the need for a preconsultation meeting prior to submission of the Site Plan Control Application. The number of participants involved in a preconsultation will vary depending on the complexity of the proposed project.

**Five (5) folded copies of the plans plus 1 set of digital copies of the plans in PDF format and supporting documentation are to be submitted** to the Site Plan Control Officer with the completed Site Plan Control Agreement Application. When all the required information and material outlined in the preconsultation memo of understanding are provided, the Site Plan Control Officer circulates the submission to the following Review Agencies for their comments:

### City Review Agencies:

- Planning Services
- Development Engineering (including Water Waste Water and Drainage comments)
- Infrastructure Capital Planning Services
- Linear Infrastructure Services
- Building Services
- Fire Services
- Greater Sudbury Development Corporation
- Transit
- Source Water Protection (developments located in regulated areas)
- Housing Services (Government Funded Projects Only)

### Outside Review Agencies

- Conservation Sudbury - Nickel District Conservation (developments located in regulated areas)
- Greater Sudbury Hydro (developments within service area)
- Canada Post
- Hydro One (developments within service area)
- Ministry of Transportation (developments located within MTO control areas)
- Railway Companies (developments adjacent to railway lines and yards)

The Review Agencies will provide their comments on whether the information and material provided is complete to the Site Plan Control Officer and these are forwarded to the applicant for their review and action as required. The comments may require revision to the site plans and/or additional information with respect to supporting documentation. Upon receipt of the revised submission, the Site Plan Control Officer will distribute the package to the applicable Review Agencies for their comments.

During the review process, a draft agreement is prepared and distributed to the applicable Review Agencies for review and comment. When the draft agreement comments are received by the Site Plan Control Officer, the agreement is updated and forwarded to the applicant for review. Once the draft agreement is finalized, the Review Agencies' comments have been addressed and the drawings/documents are in order, the Site Plan Control application will be deemed complete and the Agreement is forwarded to the City's legal services for approval, signing and registration.
