

# USER FEES

Kin Park Blezard Valley

## USER FEES

---

User fees are fees charged by municipalities to recover direct costs for services provided to a specific user or group of users, including tourists and non-residents. They reflect unit prices for a service that is deemed to be unique to a given user group and are not appropriate for recovery solely from the municipal tax levy. User fees are about ensuring tax fairness and equity based on an understanding of who benefits from services being delivered: an individual user (i.e. a public skating enthusiast) or a group (i.e. motorists who park in the downtown) versus a large portion (or all) of the population (i.e. residents that rely on emergency services).

The user fees illustrated in the following schedules are the fees for services that provide either a direct benefit to the user, or provide a direct benefit to both the user and the community as a whole. Therefore the cost to provide these services is partially recovered from the user. To fully fund the services through the tax levy would result in a significant increase to property taxes for individuals who may never enjoy certain services.

User fees also ensure that the City of Greater Sudbury maintains adequate service levels comparable to other municipalities and meets users' expectations.

### LONG-TERM FINANCIAL PLAN

---

The City's Long-Term Financial Plan mentions user fees in three out of four financial principles.

- Long-term sustainability: Balancing affordability with resource demands when establishing taxation levies and user fees.
- Respect for the taxpayer: Considering the affordability of City charges (taxes and user fees) as part of the financial decision-making process.
- Appropriate funding for services: The City's annual budget process will consider the appropriate allocation of funding between taxation and user fees and the use of area rating, recognizing that residents who use multiple services the most often can afford them the least.

### USER FEE FRAMEWORK

---

The City's user fee framework states that many factors contribute to determining the appropriate rate to be charged for each user fee. Some examples of factors to consider include:

#### 1. Determine the full cost to provide the service

The full cost of providing the good or service should be the starting point in developing an appropriate fee and should include direct costs (operating and maintenance) and indirect costs (overhead). All capital costs including depreciation and debt repayment should also be considered.

#### 2. Determine the demand for the service, and if pricing will significantly affect the demand.

User fees can act as a mechanism for allocating scarce resources or managing the timing of demand for a good or service. Implementing price differentials can help to balance the demand for goods or services between peak and off-peak periods.

#### 3. Determine appropriate level of cost recovery from user fees:

- A. Fully Tax Supported: These are services that are 100 % recovered through property taxation with no direct charge to the user. These services support the community as a whole and cannot easily determine a rate for an individual user. This includes emergency services, such as Police Services.
- B. Partially Tax Supported: These are services that provide a direct benefit to the individual user as well as the community as a whole, therefore the cost is partially recovered through a user fee, and the balance from the municipal tax levy. An example of this is transit, as the use of public transit not only provides a benefit to the user, but the community as a whole in terms of reduced air pollution, traffic and road deterioration.
- C. Non-Tax Supported: These are services that provide a direct benefit to the user only, and therefore should be 100 % recovered through user fees. Examples of this are the issuance of building permits and parking costs.

#### 4. Review market rates charged by other service providers for the same or similar service, if applicable.

## 2019 INFLATIONARY INCREASES

In accordance with the current Miscellaneous User Fee By-law, the 2019 user fee rates were to be increased by the greater of 3 % or the September 2018 Stats Canada Consumer Price Index (CPI) for all items, which was 2.2 %. Any exceptions to the 3 % increase are described on the appropriate fee schedule.

Most fee increases are scheduled to come into effect on January 1, 2019. However, there are fees in the by-law that follow the playing season, such as ice rentals and playing fields, and reflect increases at the start of their respective seasons as opposed to the beginning of the calendar year.

In most cases, the 2019 user fees have been rounded to the closest \$.25, \$.50, \$1.00, \$5.00 or \$10.00, depending on the value of the service provided.

Each department may request changes to the previous year's by-law, including administrative changes, for clarity and ease of application.

### Community Development

Community Development has approximately 800 user fees and variations, which are primarily made up of leisure, fitness, playing fields, ski hills, arenas, parking and transit. These fees represent approximately \$28 million of the total user fee revenue collected, with the major contributor being transit fares.

### Corporate Services

Corporate Services has approximately 160 user fees which account for approximately \$4.7 million of the total user fee revenue collected. These fees are made up of administrative services, marriage act, legal, parking, financial services, and by-law and enforcement fees, with the majority of the revenue generated from legal services.

### Community Safety

Community Safety has more than 90 user fees, which account for approximately \$466,000 of the total user fee revenue collected. The majority of this revenue comes from the Lionel E. Lalonde Centre for meeting room rentals and gym costs.

### Growth and Infrastructure

Infrastructure Services has approximately 300 user fees, which account for approximately \$11.6 million of the total user fee revenue collected. These fees are made up of public works, environmental services, and planning and development fees, with the majority of the revenue derived from landfill tipping fees.

Notes:

1. Not-for-profit organizations (NPOs)\* and registered charity groups have permission to book periodic meetings at no cost and are responsible for the cleaning of the facility immediately after the meeting, to an acceptable level as outlined in the facility rental agreement. Leisure staff has the responsibility to manage the schedule for free meetings in order to meet the needs of all not-for-profit/charity groups equitably. Leisure staff has the responsibility to manage the schedule for free meetings in order to meet the needs of all nonprofit groups equitably.

\*Not-for-profit organization (NPO) is defined as a “recognized non-profit organization”. NPOs are associations, and/or societies that are not charities and are organized and operated exclusively for social welfare, civic improvement, pleasure, recreation, or any other purpose except profit.

Below are a few types of NPOs and an example of each:

- Social, recreational, or hobby groups (i.e. CANs, bridge clubs, curling clubs, and golf clubs, knitting clubs, etc...)
- Amateur sports organizations (i.e. hockey associations, baseball leagues, soccer leagues)
- Registered charitable organizations (i.e. food banks, soup kitchens, missionary organizations).

Meeting is defined as “a gathering for the purpose of the organizations business” i.e. Annual General Meetings, monthly executive meetings, with the intention of a lecture style set up to include light refreshments only. Meetings are not intended for fundraising events, elaborate gatherings, or large scale leisure activities.

2. Non-profit groups are entitled one free rental per year for a maximum of 2 days for an event that is outside of the definition of a meeting, as explained above. For example, fundraisers, fairs, dinners, dances, holiday events. The free rental does not include ancillary costs such as insurance or any additional amenities other than what is available on site at the facility. Subsequent to the annual “free rental usage”, the not-for-profit group would be subject to fees as outlined in the user fee by-law.

4. As per resolution CC2018-147, the City of Greater Sudbury will waive all facility rental costs at its large facilities/arenas, including arena floors, for a period of up to 3 days for major milestone anniversary celebrations of the host communities (every 25 years). This includes the former towns and cities of Sudbury, Capreol, Nickel Centre, Rayside-Balfour, Valley East and Walden.

**Exceptions**

The waste collection fee for high density and multi-type residential buildings has been updated to include administration costs since the program is designed to be full cost recovery. The Biz Bag Commercial fee and the Bag Tag fee will remain the same until the inventory is depleted as the fee is printed on the package and tag.

Some fees were frozen if the 3 % increase did not bring the rates up to the next nearest dollar as the City's solid waste facilities do not keep change less than a dollar.

The fees for tire disposal were removed this year as section 68(3) of the Resource Recovery and Circular Economy Act, 2016, S.O. 2016, c. 12, Sched. 1 states that a person responsible for establishing and operating a collection system shall ensure that no charge is imposed at the time of the collection.

These fees were approved by the General Board of the Nickel District Conservation Authority on May 10, 2018. The increase partially closes the gap by 75 %, between the Authority's current fees and the average fees of conservation authorities providing comparable services and located in contextually-similar municipalities in the province. These fees will provide partial cost recovery for authority staff undertaking planning reviews and are limited to undertakings located in those areas regulated by the Conservation Authority.
