Request for Decision

2013 Audit Work Plan - Auditor General's Office

Recommendation

THAT the Audit Committee receive the Auditor General's Audit Work Plan for 2013 as outlined in the report dated April 10, 2013 from the Auditor General.

Purpose

The purpose of this report is to provide City Council with details of the Auditor General's 2013 Audit Work Plan.

Financial Impact

The recommendation in this report has no financial impact beyond the amount provided in the Auditor General's 2013 budget request.

Background

City bylaw 239-2009 formalized the appointment of an Auditor General for the City of Greater Sudbury in September of 2009.

The Auditor General "reports to council and is responsible for assisting the council in holding itself and its administrators accountable for the quality of stewardship over public funds and for achievement of value for money in municipal operations."

At Council's request, the Auditor General developed an initial 2010 to 2013 audit plan was mainly program (performance) based. The initial plan identified auditable programs using the financial cost centre structure as a guide, and provided a sequence for those programs to be audited. The sequence was determined through an initial risk ranking process. The intention of the initial plan was to provide audit coverage across many areas of the organization. At the same time, the Auditor General also advised Council of the need for various cross-cutting audits intended to provide oversight of key activities and internal control structures that impacted activities across the organization (conformance).

Upon further clarification, the Auditor General's understanding of the intended focus of the audit activity by Council, was closely aligned with the professional standards established by the GAO as Generally Accepted Government Auditing Standards (GAGAS). Councillors did recognize that audit resources were limited, and did question if the resources were adequate at the time. It was accepted at that time, that resources would be re-evaluated at a later date. Councillors should also recognize that in addition to the efforts of Senior Auditor, over the last two years, the Auditor General's Office has retained co-sourced legal

and audit expertise.

In 2013, City Council directed Administrators to provide a review of the audit activity to guide Council in determining the future direction of audit oversight at the City. Stakeholders should note that the Auditor General's work plan may be significantly impacted by the observations, conclusions and recommendations of Mr. James Key of The Shenandoah Group, in a report to Council expected May 2013.

The Auditor General continuously monitors Council and Committee meetings, CGS initiatives, CGS Benchmarking, Citizen Surveys and emerging issues. Audit topics are evaluated against an impact matrix that was previously provided to Audit Committee, to aid in ranking and sequencing audit projects. As always, projects have been identified where audit or review procedures are expected to present the greatest organizational value for the time committed. It is important to note that the audits completed over the next year may also be impacted by emerging issues identified by the Auditor General's Office or by Council request.

Having now completed close to three years of audit projects, the Auditor General's office has successfully demonstrated most types of audits that the auditors may use to provide value to the organization. The Auditor General's Office has provided oversight in a number of program areas originally identified in the program (performance), portion of the long term audit plan. The initial program risk assessment process appears to have worked as expected. Also, with further insight and understanding of the risk and governance challenges and opportunities found in the organization, the Auditor General has found it necessary to apply more audit resources to cross-cutting audits with the intention of providing oversight and insight into key activities and internal control structures that impact activities across the organization (conformance).

Comments

In November and December of 2012, the Auditor General sought Audit Committee and Senior Management Team feedback on the attached proposed audits, additional potential audits, and their desired order of completion.

The Auditor General's 2013 Audit Work Plan is provided to the Audit Committee as a combination of audits in progress, planned 2013 audits and future potential audits. The plan also outlines the Auditor General's expected order of completion for these audits.

As in the past year, our audit work plan will also include formal follow-up review of completed audits to ensure recommendations contained in previously issued audit reports have been implemented.

Due to unforeseen circumstances, resources in the Auditor General's Office have been significantly reduced during the first quarter of 2013. A number of the audits on this work plan list will not be completed during 2013, as they will either commence later in the year and will not be completed until 2014.

The Audit Work Plan is intended to be flexible and may be amended by the Auditor General as required. The bylaw establishing the Auditor General's Office provides that once established, "no deletions or amendments to the annual audit plan shall be made except by the Auditor General, however, Council may add to the annual audit plan by a two-third's majority vote."

The 2013 Audit Work Plan provides a balance of audit work that will result in improving overall City operations by strengthening management controls, improving accountability and enhancing the efficiency and effectiveness of municipal services.

Summary

The purpose of this report is to provide City Council with details of the Auditor General's 2013 Audit Work Plan.

Financial Impact

The recommendation in this report has no financial impact beyond the amount provided in the Auditor General's 2013 budget request.

Background

City bylaw 239-2009 formalized the appointment of an Auditor General for the City of Greater Sudbury in September of 2009.

The Auditor General "reports to council and is responsible for assisting the council in holding itself and its administrators accountable for the quality of stewardship over public funds and for achievement of value for money in municipal operations."

At Council's request, the Auditor General developed an initial 2010 to 2016 audit plan was mainly program (performance) based. The initial plan identified auditable programs using the financial cost centre structure as a guide, and provided a sequence for those programs to be audited. The sequence was determined through an initial risk ranking process. The intention of the initial plan was to provide audit coverage across many areas of the organization.

At the same time, the Auditor General also advised Council of the need for various cross-cutting audits intended to provide oversight of key activities and internal control structures that impacted activities across the organization (conformance).

Upon further clarification, the Auditor General's understanding of the intended focus of the audit activity by Council, was closely aligned with the professional standards established by the GAO as Generally Accepted Government Auditing Standards (GAGAS).

Councillors did recognize that audit resources were limited, and did question if the resources were adequate at the time. It was accepted at that time, that resources would be re-evaluated at a later date. Councillors should also recognize that in addition to the efforts of Senior Auditor, over the last two years, the Auditor General's Office has retained co-sourced legal and audit expertise.

In 2013, City Council directed Administrators to provide a review of the audit activity to guide Council in determining the future direction of audit oversight at the City. Stakeholders should note that the Auditor General's work plan may be significantly impacted by the observations, conclusions and recommendations of Mr. James Key, of The Shenandoah Group in a report to Council expected May 2013.

The Auditor General continuously monitors Council and Committee meetings, CGS initiatives, CGS Benchmarking, Citizen Surveys and emerging issues. Audit topics are evaluated against an impact matrix that was previously provided to Audit Committee, to aid in ranking and sequencing audit projects. As always, projects have been identified where audit or review procedures are expected to present the greatest organizational value for the time committed. It is important to note that the audits completed over the next year may also be impacted by emerging issues identified by the Auditor General's Office or by Council request.

Having now completed close to three years of audit projects, the Auditor General's office has successfully demonstrated most types of audits that the auditors may use to provide value to the organization.

The Auditor General's Office has provided oversight in a number of program areas originally identified in the program (performance), portion of the long term audit plan. The initial program risk assessment process appears to have worked as expected. Also, with further insight and understanding of the risk and governance challenges and opportunities found in the organization, the Auditor General has found it necessary to apply more audit resources to cross-cutting audits with the intention of providing oversight and insight into

key activities and internal control structures that impact activities across the organization (conformance).

Comments

In November and December of 2012, the Auditor General sought Audit Committee and Senior Management Team feedback on the attached proposed audits, additional potential audits, and their desired order of completion.

The Auditor General's 2013 Audit Work Plan is provided to the Audit Committee as a combination of audits in progress, planned 2013 audits and future potential audits. The plan also outlines the Auditor General's expected order of completion for these audits.

As in the past year, our audit work plan will also include formal follow-up review of completed audits to ensure recommendations contained in previously issued audit reports have been implemented.

Due to unforeseen circumstances, resources in the Auditor General's Office have been significantly reduced during the first quarter of 2013. A number of the audits on this work plan list will not be completed during 2013, as they will either commence later in the year and will not be completed until 2014.

The Audit Work Plan is intended to be flexible and may be amended by the Auditor General as required. The bylaw establishing the Auditor General's Office provides that once established, "no deletions or amendments to the annual audit plan shall be made except by the Auditor General, however, Council may add to the annual audit plan by a two-third's majority vote."

The 2013 Audit Work Plan provides a balance of audit work that will result in improving overall City operations by strengthening management controls, improving accountability and enhancing the efficiency and effectiveness of municipal services.
